Applicants' amendments and arguments filed on 5-2-05, have been fully considered and are deemed to be persuasive to overcome the rejections previously applied. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn.

#### ***Drawings***

Drawings submitted in this application are accepted by the Examiner for examination purposes only.

---

#### ***Priority***

Applicant's claim for domestic priority under 35 U.S.C. 119(e) is acknowledged.

#### ***Allowable Subject Matter***

Claims 44-49, 51-59, 111-112 are allowed.

The following is an examiner's statement of reasons for allowance: Following a diligent search it was determined that the prior art neither teaches nor suggests a recombinant cell suitable for degradation of an oligosaccharide, wherein said recombinant cell comprises polynucleotides *celZ* and *celY* isolated from *Erwinia* encoding the polypeptides EGZ and EGY, capable of acting in synergy as claimed in claims 44-49, 51-59, 111-112. While the endoglucanases from *Erwinia* were known, it was determined that their action in synergy was not disclosed in the prior art and that is what renders this instant invention non-obvious.
